On-page Optimization

On page, optimization refers to all measures that can be taken directly within the website in order to improve its position in the search rankings. Examples of this include measures to optimize the content or improve the Meta tags.

- Header(H1/H2)
- Image Alt-tag
- Meta Title
- Meta keywords
- Meta descriptions
- Anchor text linking

Off-page Optimization

Off-page optimization refers to all the measures that can be taken outside of the actual website in order to improve its position in search rankings. These are measures that help create as many high-quality backlinks (incoming links) as possible. We do the following activities to generate high quality links:

- Article submission
- Directory submission
- Blog posts
- Content submission
- Social bookmarking
- Press release
- Image Submission
- Guest Blogging
